Acute Encephalitis

This bulletin provides you with details of the latest evidence and key research on this topic. Find it and other bulletins at http://www.hello.nhs.uk/fy_bulletins.asp.

ULHT

Guidelines, Procedures and Protocols

UpToDate - a point of care tool which summarises the evidence for busy clinicians. Includes aetiology, prevention, diagnosis, treatment, complications and prognosis. You will need to register on a Trust PC, after which you may login from this link and any other device.

Log in and then search for acute encephalitis

Guidance

- The management of encephalitis: clinical practice guidelines, Infectious Diseases Society of America, 2013
- Management of suspected viral encephalitis in adults, Association of British Neurologists, 2012

Evidence-Reviews

- Antiepileptic drugs for the primary and secondary prevention of seizures in viral encephalitis, Cochrane Database of Systematic Reviews, 2015
- Challenge of the unknown: a systematic review of acute encephalitis in non-outbreak situations, Neurology, 2010
- Treatment for Fisher syndrome, Bickerstaff's brainstem encephalitis and related disorders, Cochrane Database of Systematic Reviews, 2010

Recent Key Primary Research

- Acute encephalitis in the immunocompromised individual, Current Opinion in Infectious Diseases, 2015
- The spectrum of acute encephalitis: Causes, management, and predictors of outcome, Neurology, 2014
- Diagnosis and management of acute encephalitis: A practical approach, Neurology Clinical Practice, 2014
