Search details

Challenging behaviour and dementia – non-pharmacological interventions

Resources searched

Dynamed, NHS Evidence, TRIP database, PsychINFO, MEDLINE

Summary

Sat with requester and went through all of the sources available to us. Printed off a list of articles from MEDLINE and PsychINFO which looked useful. Applied for items marked by reader.

Guidelines

Showed the reader how to access TRIP. She was happy to look through the various guidelines herself as there are a lot of them and we didn’t have time to do this together.
