Looking to find evidence to show that tummy-time is important for newborns/infants in development of gross motor skills and in prevention of SIDS.

Resources searched

NHS Evidence, TRIP database, Psychological and Behavioural database

Database search terms:

Google search string:

Summary

Several articles found with relevant information. One book, one chapter from a book found in references from one of the articles.

Guidelines

Evidence-based reviews

Published research
1. **Influence of supine sleep positioning on early motor milestone acquisition.**

**Author(s):** Majnemer, Annette, Barr, Ronald G

**Citation:** Developmental Medicine & Child Neurology, June 2005, vol./is. 47/6(370-376), 0012-1622;1469-8749 (Jun 2005)

**Paper copy at Pilgrim**

2. **As they grow: 0-12 months. The importance of tummy time.**

**Author(s):** McGovern C

**Citation:** Parents (10836373), 01 August 2001, vol./is. 76/8(119-119), 10836373

**Source:** CINAHL

3. **Conveying the message about optimal infant positions.**

**Author(s):** Jennings JT, Sarbaugh BG, Payne NS

**Citation:** Physical & Occupational Therapy in Pediatrics, 01 June 2005, vol./is. 25/3(3-18), 01942638

4. **Tummy time! Preventing unwanted effects of the "Back to Sleep" campaign.**

**Author(s):** Chizawsky LLK, Scott-Findlay S

**Citation:** AWHONN Lifelines, 01 October 2005, vol./is. 9/5(382-387), 10915923

5. **Tummy time is important.**

**Author(s):** Graham JM Jr.

**Citation:** Clinical Pediatrics, 01 March 2006, vol./is. 45/2(119-121), 00099228

6. **"Tummy time" alternatives... Zero to three (September 2007).**

**Author(s):** Brady LT

**Citation:** Zero to Three, 01 November 2007, vol./is. 28/2(4-4), 07368038

7. **Behavior: tummy-time pointers, early potty training, and more.**

**Author(s):** Learner C

**Citation:** American Baby, 01 May 2008, vol./is. 70/5(50-52), 00447544

8. **Sudden infant death syndrome.**

**Author(s):** Adams SM, Good MW, Defranco GM

**Citation:** American Family Physician, 15 May 2009, vol./is. 79/10(870-874),
9. Parental information and behaviors and provider practices related to tummy time and back to sleep.

**Author(s):** Koren, Ainat, Reece, Susan M, Kahn-D’angelo, Linda, Medeiros, Dorothy

**Citation:** Journal of Pediatric Health Care, July 2010, vol./is. 24/4(222-230), 0891-5245 (Jul-Aug 2010)

10. Behavior Q&A.

**Citation:** American Baby, 01 August 2010, vol./is. 72/8(52-53), 00447544

**Abstract:** Tummy-time troubles, baby-routine upset, haircutting fears, and territorial 2-year-olds.

**Source:** CINAHL

11. Barriers to following the back-to-sleep recommendations: insights from focus groups with inner-city caregivers.

**Author(s):** Colson ER, McCabe LK, Fox K, Levenson S, Colton T, Lister G, Corwin MJ

**Citation:** Ambulatory Pediatrics, 01 November 2005, vol./is. 5/6(349-354), 15301567

12. Tragedy, Utopia and medical progress.

**Author(s):** Fredriksen, S

**Citation:** Journal of Medical Ethics: Journal of the Insitute of Medical Ethics, August 2006, vol./is. 32/8(450-453), 0306-6800 (Aug 2006)
